

# COMMISSION SHIFT MIGHT CHANGE CHIEF

While speculation is rife at the city hall as to the outcome of Mayor Davie's move to place Commissioner of Revenue and Finance W. H. Edwards at the head of the department of public health and safety, now presided over by Commissioner F. F. Jackson, it was rumored today that in event of the change taking place City Clerk L. W. Cummings will be named chief of police, vice J. H. Nedderman, but this is only one of the many rumors current.

The matter of shifting the ordinance providing for the change in commissions will come before the city council tomorrow.

I am pointed out that up to date no evidence has been submitted substantiating any of the sensational charges made.

There are several interesting angles to the case which have brought about considerable speculation over the outcome.

Commissioner Frederick Soderberg is conceded to be the pivotal point on the question, and he has so far refused to say how he stands.

**FEARED FOR POSITIONS.**  
Should Commissioner Jackson be moved from his present department, it is conceded that the position of City Clerk Cummings, which has often been a matter of controversy between the commissioners, would be in jeopardy. Commissioner Edwards, some time ago refused to vote to change Jackson when the council refused to pass a resolution placing the members on record as agreeable to leaving the conduct of the department entirely in his hands.

It was further rumored that Edwards feared that in event of the change Cummings would lose his position and possibly City Treasurer William Fitzmaurice, Commissioner Soderberg would undoubtedly, it was believed, vote with Commissioner Edwards and Jackson to take away Edwards' patronage.

As the situation now stands there has been little change in alignment between the commissioners despite the fact that Mayor Davie introduced the ordinance. It is said by those who have followed the situation that Mayor Davie has taken the step to protect himself from criticism that might follow as the result of a letter recently sent to him by District Attorney Ezra Decoto, in which the district attorney passed the entire matter of police and vice problems in the city right back to the chief executive and the city council.

**PUT UP TO COUNCIL.**  
Mayor Davie ten days ago wrote to the district attorney asking that he use his office to bring about reforms in the police department and in vice conditions. Decoto replied that it is a matter strictly up to the city council and that if the council could not handle the situation then he would probably have to interfere, but not until then. In his statement to the council yesterday the mayor said that he believed the change would be "for Commissioner Jackson's own good," and that if the council does not see fit to make the change then any blame in the future should be placed against the entire council rather than against any one city official.

Both Commissioner Jackson and Commissioner Edwards, as well as the mayor, must run for office again next year, as their terms expire. Should Edwards and Jackson change places Jackson would become ex-officio a member of the board of school directors.

**EDWARDS REPLIES.**  
Commissioner Edwards' reply to Commissioner Jackson's "attack" of last Friday follows:

"To the Honorable, the City Council of the City of Oakland—Gentlemen: In reply to the letter of Commissioner Jackson, which he read in the city council last Friday, I wish to say that his unwarranted and false attack on me requires that I make reply.

"I was in Los Angeles during the week the charges were made against Commissioner Jackson and know nothing of them and had nothing to do with them. I could not but feel that such statements were, to say the least, very injurious to our city and to be deplored, and I did not hesitate to say so.

"I have no personal animosity against Commissioner Jackson, or any member of the police department. I seek only to do my duty as a public official and an honorable man and the effort of Commissioner Jackson, through Chief Nedderman, to distort a telephonic introduction of over a year ago into a request for a rambling permit is quite in keeping with the doctor's usual tactics and has absolutely no foundation in fact. I shall always be found fighting for the moral uplift of our city, whether Commissioner Jackson likes it or not, and his charge that I had anything to do with the Post attacking him is absolutely false.

**CIPES GRAND JURY.**  
"Commissioner Jackson is pleased to say that I represent the 'old gang.' I don't believe he knows himself just what he means by this statement, but if the good doctor means to imply that he represents the 'new gang,' then if only half of what the Post alleges is true I am happy indeed that he places me outside the pale of the 'new gang.' The doctor says there has never been a charge or complaint against his conduct by any reputable organization. Does he mean to say the grand jury of Alameda county is not a reputable body?"

"I have before me the findings of that honorable body of March, 1917, in which they make some very explicit criticisms of the commissioner and his department and in which they demanded of him at that time that all interlopes and other meddling be kept closed and also stating that the commissioner knew little or nothing about any of his department's activities.

"It is extremely deplorable that we should have contention in this council over vice conditions and no subterfuge of politics, as charged by Commissioner Jackson, can relieve this council of its responsibility."

## PLAN MAPPED TO GIVE LAND TO SOLDIERS

California's first land settlement project at Durham, the first of its kind in the United States, will probably form the basis for America's colonization of lands for returned soldiers, according to Dr. Elwood Mead, in addressing the Berkeley Defense Corps at a meeting last evening.

Dr. Mead just returned from Washington, where he was called into consultation by Secretary of the Interior Franklin K. Lane, and reports that excellent progress is being made throughout the whole United States towards the securing of surveys of the available land for this purpose.

Contrary to the usual impression, he says, all of the available land in the United States is not confined to the Western states, but it is estimated by government officials that, with proper supervision and government aid, millions of acres of swamp land, arid land, cut over land

## Publicity For Rent Profiteers Public Opinion To Be Judge

"Complete and pitiless publicity" is the remedy that may be applied by the new rent profiteering committee appointed in Oakland at the instance of the United States Department of Labor to check cases of attempts to victimize tenants by extortionate rent charges. The committee, of which Senator Arthur H. Breed is chairman, will hold its first meeting tomorrow afternoon at the Chamber of Commerce and will hear some thirty complaints of alleged gross and excessive increases in rent to war and industrial workers.

The committee will at that time determine upon its policy, and it is probable that the recommendation of the United States Housing Commission to adopt the "New London, Conn. plan" will be carried out. This is the publicity method. It contemplates a careful study and survey of each complaint of rent profiteering on its merits, a request where the complaint has been found justified to the landlord to reduce the rent to a fair amount, with the alternative of having the facts brought out at

and abandoned plantations can be drained, irrigated, stumped or rehabilitated and made into excellent farm land throughout the South and East.

Officials are watching with interest the plan formulated by Dr. Mead which was recently inaugurated at Durham, and it is likely that this group method of settlement will be adopted generally by the whole United States in the settlement of this problem.

Following Dr. Mead's talk resolutions were adopted by the corps commending the government plan and lending the aid of the organization toward carrying out its provisions.

the hearing published if the request for reduction is not acceded to by the landlord.

"Public opinion will then pass judgment upon the rent profiteer," R. A. Pettit, Pacific coast manager for the United States Housing Commission, said in his letter to Breed, advising the "pitiless and complete publicity plan." "It is not necessary for the local committee to make any comment but only to publish the facts. This will be found a most effective weapon against the unprofitable war profiteer."

The rent profiteering committee has invited all war workers who believe that they are being forced to pay extortionate rents to lay their cases before it for adjustment. The committee consists of Senator Breed, H. K. Jackson, Samuel J. Donahue and Alden Ames. H. A. Laffler is secretary.

**TO MAKE INVENTORY.**

Marshaling of the Mobilized Women's Army to make the inventory of all rooms that can be had for war workers in Oakland was commenced today under the direction of Mrs. M. A. Anderson and her officers. The work of visiting the home and filling out the cards will be commenced Saturday and carried on Monday and Tuesday in conjunction with the canvass of homes in behalf of the Fourth Liberty loan.

The Mobilized Women undertook to make the complete inventory of Oakland yesterday at a mass meeting held at the Liberty theater.

As soon as the cards showing all available rooms have been filled out and indexed the movement will be started to launch a building campaign to make up the deficiencies in housing in Oakland, the extent

of which will then be known in accurate detail.

The need of helping in the housing survey was explained to the women by Miss Ethel Moore, who introduced Joseph R. Knowland, chairman of the Oakland Housing and registration committee of the Bureau of Housing, United States Department of Labor. Miss Moore said:

"It is our task to help win the war, and you all know that we must have ships and we must have men at the seaports to build the ships. They cannot build ships at Denver or Omaha. We have the responsibility resting upon communities such as ours, such as that of Seattle, Portland, San Francisco and San Pedro, to do our part in seeing that this government shipbuilding program shall not be hindered, but shall be put through in the fastest time possible."

**MUST MAKE SACRIFICES.**

"It is not merely a question of helping out by making this canvass of the city to find homes and rooms and lodgings for war workers. We must be ready to make sacrifices ourselves, and to be so imbued with the idea of sacrifice, of the vital need for these ships, that we shall be able to convince the householders we interview, persons who have never taken lodgers before, that it is part of their patriotic service to their country to pull down the bars, to inconvenience themselves a little, to help out in this government work."

The urgency of the present need for housing was explained by Chairman Knowland of the local committee. He outlined the work which could be accomplished by the women, and said that he knew of no way in which the task could have been carried to fulfillment had not the Women's Army volunteered its services.

**WILL GET GOOD SURVEY.**

"With your help we are going to get an intelligent survey of the housing situation in Oakland," said Knowland. "If the women had not volunteered I do not know how we

would have managed. There were no funds, and even if we had had money to pay for this work, paid canvassers would have been required to exercise the judgment you will use. Oakland and America will owe you a debt of gratitude, and I wish in the name of the committee to express to you our appreciation of your work."

You realize that we are confronted by the most important problem in the task of housing for war industry workers. Last February the postoffice department made a survey in Oakland and ascertained that there were more than 2200 vacant houses. A new survey conducted last week showed that this 2200 houses had dwindled to 200; that a period of a few months ago there were more than 2200 vacant houses, representing an additional population of more than 10,000 persons, had come to Oakland. And of this 200 houses still vacant, in the city of Oakland, a minority of which can be had for the relatively low rental to be paid by industrial workers.

**DUTY IS MADE PLAIN.**

"Two courses will be open to the government if we do not meet this situation by using what space in houses already occupied there is available and we do not provide additional housing by building activities. One would be for the government to divert the war work to some other community, which would place us in the position of not only suffering economic loss, but of falling to give service in the war to the rank of our country. The other course would be for the government to provide transportation to San Francisco, where it is claimed there are still a good many houses vacant."

"The United States Department of Labor has asked that a complete survey be made in these cities in which the housing emergency exists. It is necessary to know how many householders will take in one or more war workers as lodgers or boarders, and how many are willing to give our homes to the workers but to rent them at the reasonable rates which are generally charged for rooms of the kind offered."

"It is indeed every important work upon which we are engaged. Unless we have ships to transport men, munitions and food we cannot win the war. Unless we have men right here where ships can be built we cannot provide ships to overcome the submarine warfare."

**MORE TIME MONEY NEEDED.**

"The women of the Mobilized Army are about to start out on a campaign to sell bonds of the Fourth Liberty loan. But unless we have ships, all the money in the world, raised by Liberty loans, cannot help us to win the war. So it is very fitting that you have offered to undertake these two tasks at once—that of canvassing for Liberty bond subscriptions and that of making this inventory of the number of rooms that can be had in Oakland's homes for war workers. You will be given blanks and instructions as to how they are to be filled out. We want the information as to where there are vacant rooms, whether the owners are willing to rent them to war workers, the social conditions, the sanitary conditions, all that facts that a man seeking a place to live in would want to know before he sought to make his home in a family."

"When these cards are filled out they will be indexed and segregated into zones—this group available for workers at the new Liberty shipyard; that group, workers from the Government Island yard, etc."

"By next summer there will be need for accommodations for 30,000 or 40,000 industrial workers in the Eastbay district. It is necessary that you open your homes, even those of you who have never done so before. Some of you who have had no experience in room renting may not know how much to charge. We will have a special committee to advise you with about that, to inform you of what the current rate is for your kind of a room in your district."

**A CURE FOR PROFITEERING.**

"There has also been some talk of rent profiteering. A committee has been appointed within the last

few days to pass upon complaints of that order, to investigate, to summon witnesses and to fix a rental in each case. If the property-owner then refuses to come down to that fair rental the matter will be turned over to the government for action.

"You will have to impress it upon the people you visit that it is their patriotic duty to open their homes, to use every available room for war workers. Only by this means are we going to be able to meet the needs of this situation and to make possible the carrying out of that great program of shipbuilding which is essential to the war to a speedy and successful conclusion."

It is estimated that the city of Alameda will be able to provide accommodations for almost 2000 industrial workers in war activities as a result of the response being made by householders to the appeal for rooms being made by those making

an inventory for the Housing Commission.

Judge Elmer E. Johnson, who is in charge of the work, has received reports from about half the workers out making the house-to-house canvass and about one-third of the homes visited are offering to take in war workers as lodgers. If this percentage continues to hold about 2000 can be accommodated in Alameda. Oakland would probably be able to give accommodation to from 5000 to 3000 workers if the same ratio should be maintained in the results from the inventory to be made here.

**I. O. O. F. CONFER DEGREE.**

RICHMOND, Sept. 24.—The third degree was conferred last night by Eclipse Lodge, I. O. O. F. at its meeting in Bank Hall. The meeting was attended by the members of Twilight Lodge for a conference relating to important matters of lodge work.

## RAILWAY MEN IN WALES STRIKE

LONDON, Sept. 24.—A sectional strike of railway men in South Wales, who are dissatisfied with the settlement of the dispute arrived at last Thursday, began Sunday in defiance of the union leaders and spread to serious extent Monday, compelling the idleness of thousands of miners and metal workers and seriously delaying output and distribution of coal. The trouble extended further and threatens the complete disorganization of the South Wales industries.

**YOUTHS HELD  
FOR \$2,000  
BURGLARIES**

Lloyd E. Brookins, 19 years of age, of 2326 Clement avenue, Alameda, is under arrest in the city prison and Lee Osborne, 19 years, of 705 Harrison street, San Leandro, is held in San Francisco on charges alleged to implicate them in at least five burglaries and three automobile thefts during the last two weeks. Their loot, amounting to nearly \$2,000, has mostly been recovered where it was pawned in San Francisco. Both will be charged with burglary, according to the police.

The two youths, who were recently released from the Preston reformatory, were arrested last night by Inspectors William Kyle, John Duffon and James Drow of the Oakland department and Inspector W. H. Wahr-muth of the Alameda department, with the assistance of the San Francisco police.

The captures were made as the result of clues obtained by the police three days ago when the burglars were surprised while engaged in looting the home of F. W. Neave at 453 Sixty-second street. They fled through a rear entrance leaving their auto, which had been stolen from A. E. Sorenson, a San Francisco jeweler of 715 Market street, in front of the house. In the auto was found loot taken from several other homes, according to the police.

The burglaries which the police say are chargeable to the two youths include that of the Neave home and two others in Oakland and two in Alameda in addition to three auto thefts. The places robbed are:

Home of Walter Barton, 415 Vernon street, September 17; \$700 in loot taken; home of Mrs. George K. Allen, 5613 Ocean View Drive, September 20; C. J. Ford, 3330 Fernside Place, Alameda, September 15; Captain R. D. Trudgett, 1203 Willow street, Alameda, September 18. Captain Trudgett is now held captive in Germany, having been taken from one of the merchant vessels which he commanded.

After losing the Sorenson auto to the police last week the two youths are said to have stolen an auto belonging to Mrs. G. H. Bratt, 809 Wilber avenue. This was also recovered.

**DEATH OF SOLDIER  
TOLD; U. S. SILENT**

Bringing the first word of her loss, a letter telling of the death in action of her son, Private Charles Bennett, was received today by Mrs. Emily Bennett, 2443 Telegraph avenue, furnishing the third instance in which Eastbay mothers have received unofficial notification of the deaths of their sons, although no word has come from the War Department.

Relatives of Private Leo Levenson of this city and Private Henry Dillon of Hayward, who were notified several weeks ago by letter of the deaths in France, without official word, started inquiries at the War Department. Mrs. Bennett was informed of her son's death in a letter from Corporal Donald Robinson, who wrote that he is a corporal in the 12th Company, 20th Engineers, in which Bennett went to France. Corporal Robinson says that Bennett was killed in action but gave no date or other details. Private Bennett's last letter to his mother was dated August 22 and Corporal Robinson's letter is dated August 30. The Bennetts are now endeavoring to learn whether the War Department has had word of the death of her son.

**W. C. T. U. OPENS  
ANNUAL SESSIONS**

Patriotic service was the theme of the opening day of the annual convention of the Alameda County Christian Temperance Union, which is being held in the Fruitvale Methodist Episcopal Church, corner of School street and Boston avenue. The sessions will be continued at morning, afternoon and evening conferences tomorrow.

"Our Field," together with the election of officers, are on the morning's program. In the afternoon there will be "The Legislative Program," Mrs. Emma Shertzer, speaker; "The Big Sister Movement," Mrs. Helen Sweet Arledge, speaker; "Rehabilitation Home," Mrs. Sara J. Dorr, speaker; and a drill on election laws conducted by Mrs. Lucy McGinnis. An Americanization program has been arranged for the evening with Mrs. James B. Hume, the speaker. Reports of officers and superintendents of departments and a program on child conservation lent interest to today's session. "War Problems for Parents" will be discussed tonight by Dr. Sara E. Wise, state lecturer. Community singing is a feature of all the sessions.

**School Pay Rolls  
Are Held for Week**

Through refusal on the part of Director Harry L. Doyle to vote for the passage of claims at the meeting of the board of education last evening, the pay roll for nearly thirty carpenters and mechanics in the department has been held up until late next week. Doyle is a member of the finance committee. There was not enough school directors at the meeting to pass the finance committee's report over the objection. Director Doyle stated that he has consistently refused to vote on the finance report so long as it contains the items of expense of operating the private-owned autos used by certain heads of departments.

**Alameda Couple Are  
Wedded in Seattle**

ALAMEDA Sept. 21.—Miss Margaret Rutherford and Jack Robinson were married in the First Congregational church of Seattle Saturday, September 14, according to announcements just received. The bride is the daughter of a couple. Miss Rutherford left for the north some two weeks ago. No hint was given of her approaching marriage to the former well known Alameda man, who is in the employ of the First Round Mt. Co. of Fog Gulch, at which place the young couple will reside.

**What is doing  
TO-MORROW?**

Dedication of ballroom for enlisted men, Defenders' Recreation Club, 7:30 p. m.

**TREFFZ TO TELL OF  
FRONT CONDITIONS**

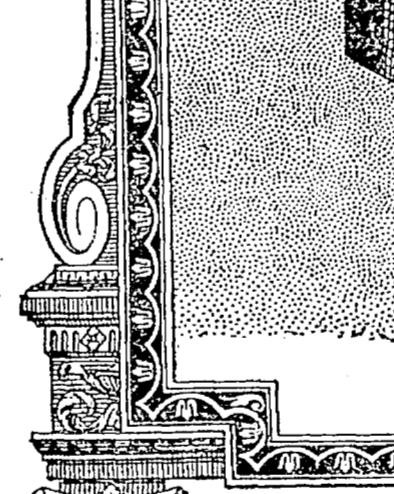

"The Red Cross rises like a white lily from the mire of battle."  
"I believe this universe is ordered with justice; I believe in the law of compensation, and I truly believe that a rich reward in the hereafter will await every Red Cross nurse."  
Edward P. Trefftz speaks thus after months' observation at the front, where he was sent by our government to report conditions for the United States food administration. He speaks here in the Hotel Oakland ballroom on Friday evening at 8 o'clock. The meeting is open to all and no admission fee is charged. He comes as a representative of the United States food administration to tell the exact truth about the war, where he saw it. Reports which have reached here indicate that an address of much more than ordinary interest will be heard.

The inspiring story of the wonderful work of the women of France and England, not only as nurses, but behind the lines in the fields and factories, will be told by Trefftz. Their cheerful sacrifices, their heart-breaking burdens, their humiliation and indignities at the hands of the Huns—these he has seen and will describe.

From his story all should be able to answer the question, "What can I do to help?"  
Ralph Merritt, food commissioner for California, will also speak and all the food administrators in the state will be on hand.

**WITH FINGERS!  
CORNS LIFT OUT**

Freezone Is Magic; Corns and Calluses Lift Right Off Without Pain.

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or a callus. Instantly, that troublesome little corn or callus stops hurting, then shortly you lift it out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses on bottom of feet. So easy! So simple. Why wait? No humbug!—Advertisement.

**SORE THROAT**

Colds, Coughs, Croup and Catarrh Relieved in Two Minutes.  
Is your throat sore?  
Breathe Hyomel.  
Have you catarrh?  
Breathe Hyomel.  
Have you a cough?  
Breathe Hyomel.  
Have you a cold?  
Breathe Hyomel.  
Hyomel is the best treatment for all throat and lung troubles. It does not contain any cocaine or morphine and all that is necessary is to breathe it through the little pocket inhaler that comes with each outfit.  
A complete outfit of Hyomel is available everywhere and at The Owl Drug Co. and Hyomel is guaranteed to banish catarrh, croup, coughs, colds, sore throat and bronchitis or money back. A Hyomel inhaler lasts a lifetime and extra bottles of Hyomel can be obtained from druggists.—Advertisement.

**Quick, Painless Way  
to Remove Hairy Growth**

(Hints to Beauty)  
Here is a simple, unobtrusive way to rid the skin of objectionable hairs: With some powdered delatone and water make enough paste to cover the hairy surface, apply and in about two minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmless, but to avoid disappointment be sure to get the delatone in an original package.—Advertisement.

**Man Found Stabbed;  
Suspect Is Arrested**

SAN FRANCISCO, Sept. 24.—Asa W. Hart, mail clerk at the St. Francis Hotel, is at the Central Emergency hospital in a dangerous condition following being found in the gutter at Kearny and Sutter streets early this morning with a knife wound in his chest and severe lacerations on face and neck. John J. Johnson, a Pullman car porter residing at the Royal Hotel, 12 City street, is under arrest, charged with stabbing Hart.

**Donald Shorb Is  
Held as Evader**

SAN FRANCISCO, Sept. 24.—Because of his failure to register September 12, Donald Shorb, member of an old California family, and central figure in many sensational court episodes, was arrested yesterday at San Diego as a draft evader. Telegraphic instructions charging Shorb with evasion were telegraphed to San Diego by Special Agent E. M. Eland of the department of justice. It is said that Shorb was planning to cross into Mexico, where, he is said to have told his sister, he intended to raise a company of Yaqui Indians to take to Europe. He is accused of making many pro-German statements.

**Horvath Would Put  
Reds Out of Russia**

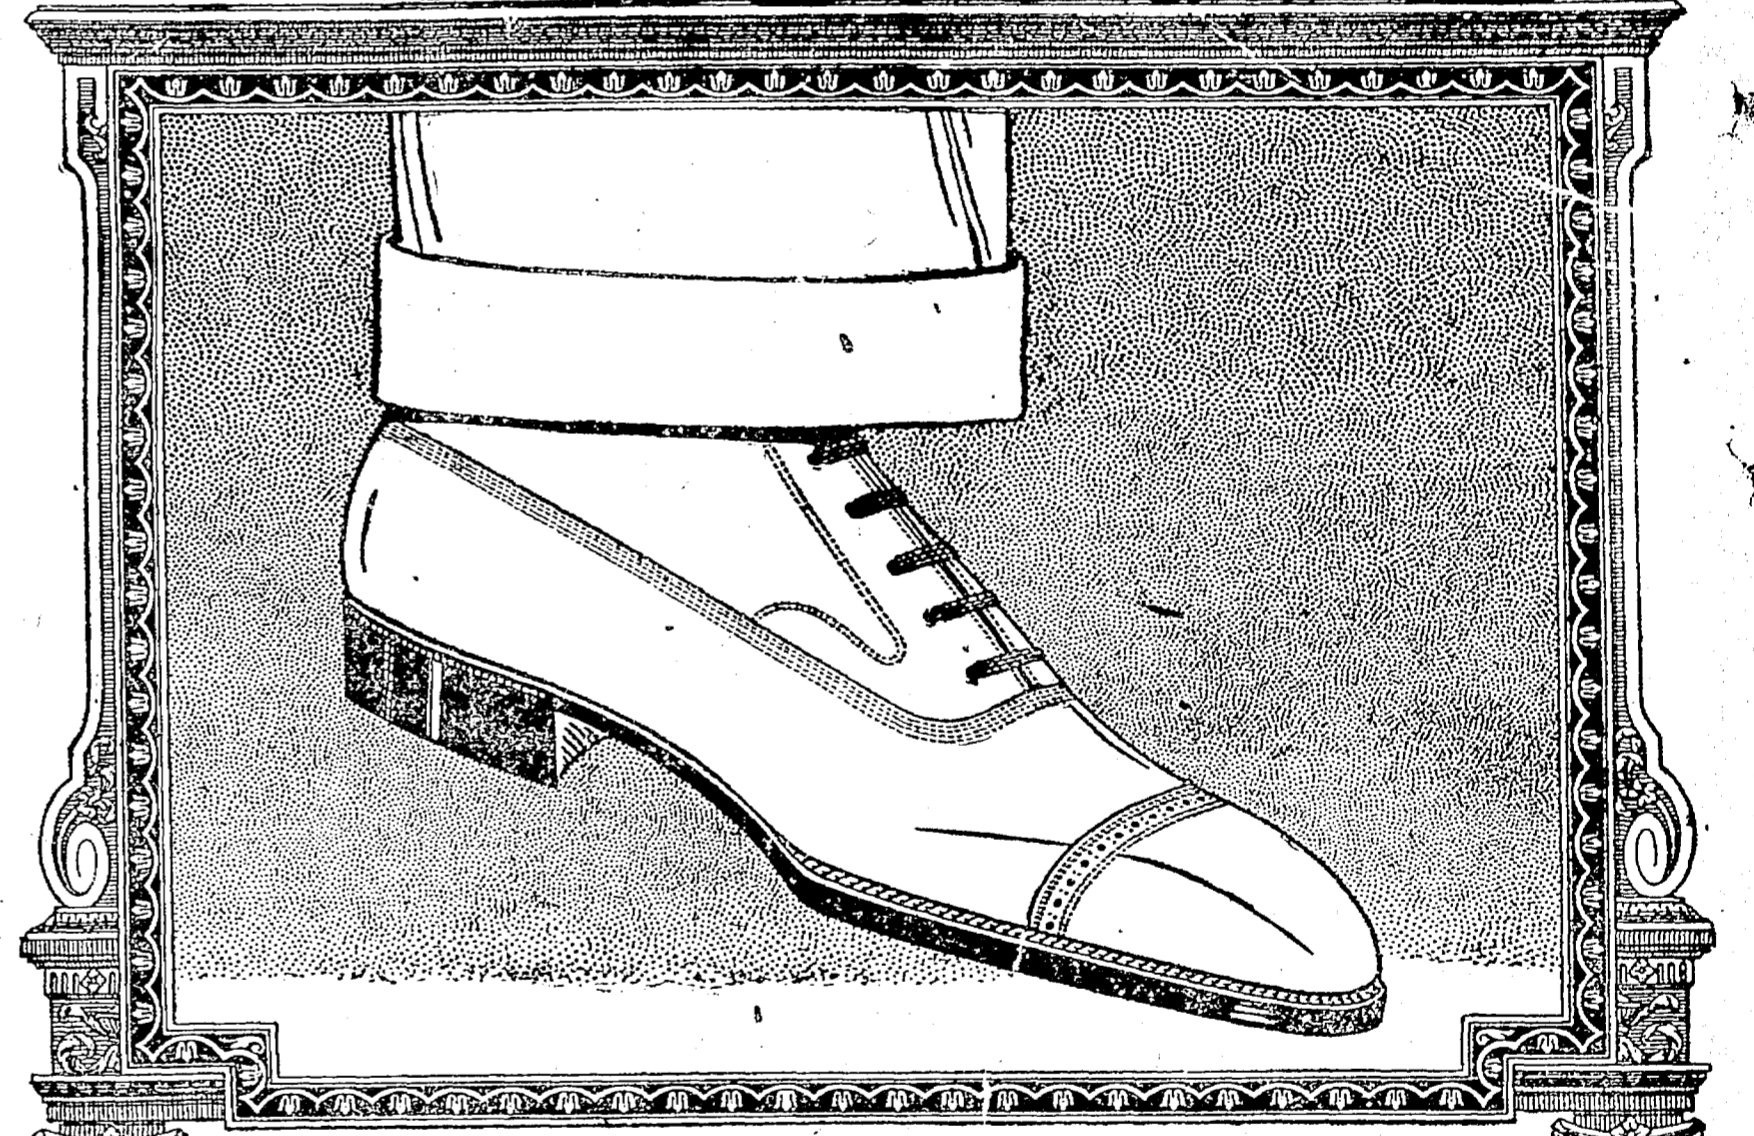

WASHINGTON, Sept. 24.—Gen. Horvath, leader of one of the anti-Bolshevik factions in Siberia, announced to the newspapers on a recent visit to this city that his first effort would be directed toward clearing away from Siberia and afterward from Russia of the Bolsheviks and their co-adjudors, the Germans and Hungarians.

**There Should Be a Limit on  
the Price You Pay for Shoes**

SOME men pay \$15 to \$25 for a pair of street shoes these days. Increased prices are such a usual thing now that a man is tempted to pay an increase without questioning. He may know the necessity for cutting down to essentials during war-time but he still pays for "store atmosphere", exclusive store location, needless variety of styles. Plain facts in the shoe business are hard to contradict. When it comes to buying the best leather and materials the great shoe manufacturer with a concentrated line has the advantage. He has the advantage, too, in designing talent, in manufacturing. Take the Regal Shoe Company for example; we serve over 2,000,000 customers; we are in intimate contact with the public every day through our sixty Metropolitan Stores; we have introduced to the trade many advanced methods of efficient manufacturing; we stand alone today in our policy of concentrating our great organization on the choicest styles and leathers. And yet with a fair profit added we feel justified in asking only \$12.50 as a top price this season.

The man who sticks to essentials needs no better shoe than the Crest (illustrated) in tan Calf-skin, \$8.75; in black Calf-skin \$8.25; in genuine Cordovan with Calf-skin top to match, \$11.25

ward.

All unions affiliated with the local  
Building Trades Council have been  
most anxious to aid in the work of the  
Service League and other win-war-  
time organizations, with the excep-  
tion of the federal government. The

There will be no meeting of the Building Trades' Council this evening as the delegates are to attend in a body the Defenders Club theater party at the Pantages Theater. The Young Men's Association of the council and union men affiliated with it will still meet at the building Trades headquarters at 7:30 o'clock and march to the theater.

Word has been received at local labor headquarters through Colonel Walker that the following items are needed: acetylene welders and refrigeration engineers or engineers are urgently needed; also, a large number of welders have received instructions to induce acetylene welders between the ages of 21 and 35 years old who are members of the union and its affiliates also are desired. It is the intention to select a group of men from among the 25,000 men in the Chemical Warfare Service. Applicants should send their names and addresses to the War Relocation Bureau, Room 114, California Hall, University of California.

George Horzan and Warren Waller of Oakland Painters' union, have returned after six months business trip to King City.

George A. Gray, organizer of the United Brotherhood of Carpenters and Joiners of America, arrived here today

Fought guilty on a charge of misrepresentation, the active promoter of preparation known as "Ki-Ki" which would have been widely and shamelessly marketed, was today found guilty of the same crime, he said, by the superior court. "Dr." Cohen was found guilty by Police Judge Samuel J. Rosen, who said he was "not surprised" that Cohen was guilty of misrepresenting her hair removal advertisements. The charges were that Cohen had used the name of a drugs bureau which has jurisdiction over such matters.

"remover" failed to remove and physical cases testified that while the ingredients were being mixed, a gas was evolved which at the same time potent to accomplish what was claimed for them. Time passed and no one could detect or identify substance composed "KI-KI," it was charged at the hearing.

**HOTEL GUEST ROBBED**

SAN FRANCISCO, Sept. 24.—The rooming house of Mrs. Florita, a Jewess of the Continental hotel, all and so forth was robbed last night, and jewelry valued at \$375 taken.

ing more able to speak upon his subject than Dr. Stephen A. Hays.

Mrs. Guy Earl, receiving hostess, was assisted by the president, Mrs. William C. Ferguson, the board of directors consisting of the following women, all of whom have sons or brothers fighting at the front:

How to Judge a Woman by Her Hair

There is a real common sense in just noting whether the hair is well kept to judge of a woman's neatness and character. The few who do not have the few who try to make the most of their hair, remember that it is not advisable to wash the hair with a cleanser made for any purposes, except to make the hair grow abundantly. You can enjoy the very best of getting some Canthrox from your druggist, dissolve a teaspoonful in a quart of water, and wash with this cup of shampoo liquid. Although so it is easy to apply it to the hair instead of just the top of the head. Dandruff, excess of oil, and itching are all driven away and disappear. Your hair will be so healthy that it will look much heavier than it is. Its texture and softness will also delight you, while the abundant growth will give the health which insures hair growth. DOCTORS ADDED TO BOARD NO. 4

Dr. Albert H. Rowe and Dr. H. S. Delamare were today added to the medical examining board of draft board No. 4. All boards in the city hall are now engaged in sending out questionnaires to newly registered men. This work to take several days yet. A few answers have already been received to the first blanks sent out.

Railroad administration officials here were busy today with questionnaires of local railroad men, who will in many cases come under the deferment rules arranged by Proctor Marshal General Crowder and Director of Railroads W. G. Meador.

Most of the railroad men, not being familiar with the details of these, brought questionnaires in to the local railroad administration offices at Thirteenth and Broadway, where Lance Richardson held a busy session with them.

FRANCHISE FOR RAILWAY ASKED OF CITY COUNCIL

In order to straighten out the technical procedure of the street car system, a franchise, formal application was made today before the city council for the franchise by W. E. Alberger, vice president and general manager of the San Francisco-Oakland Terminal Railways. Application was originally made under the provisions of the city charter amendment when the commission was appointed and after that the Legislature adopted the enabling act which made it necessary that a new application be made to avoid any possible legal complications.

Man Makes Himself Living Torch; Dying

Victor Garcia, aged 36, a Mexican, employed as a track laborer on the Western Pacific, and living at the section house at the foot of High street, at noon today, while waiting for lunch, suddenly tried to commit suicide and cremate himself.

Pouring oil over his clothes, he applied a match and ran out into the street. Before he had gone far he was overcome and fell writhing in the dust. The police were called and when the man reached the receiving hospital he was breathing, but unconscious, and Dr. Lee E. Smith said that his death would occur within a short time.

PUBLIC SERVICE PLAN IS PASSED

Mayor Davis's ordinance providing for the creation of a Public Service Board to deal with any future propositions pertaining to the acquisition of public utilities was passed finally by the city council today with Commissioner Jackson and Commissioner Soderberg voting in the negative. Under the terms of the ordinance a commission of five members is to be appointed by the mayor with the ratification of the council, to serve without pay.

Commissioner Jackson stated that he would not vote for the ordinance because Mayor Davis had refused to indicate the personnel of the commission and had turned down one of Jackson's suggested candidates, a labor representative.

Commissioner Soderberg explained his adverse vote on the ordinance by saying that he believed the council could accomplish all that a special committee could in planning the preliminaries of any proposition that may arise, such as taking over the street railways, the water system or any other public utility.

"I have been unable to say who will be named on the commission until the ordinance is passed," said Mayor Davis.

"The men on that commission should be outside of politics and men having some technical knowledge. I will make the appointments and it is up to the council to confirm them. If you don't want to adopt this ordinance it is up to you to do the next best thing, it makes no difference to me. I believe that is the right system and that it is entirely feasible."

DANIELS LONGS FOR WAR TO REACH BERLIN

PHILADELPHIA, Sept. 24.—"On my calendar in Washington is but one engagement, the day I shall march behind the marine band with General Pershing's soldiers into Berlin," declared Secretary of the Navy Daniels in an address to war workers here.

"I do not know the exact date yet," the secretary continued, "but it is coming as sure as there is a God in heaven."

Eleven Days Left In Which to Register

County Clerk George E. Gross today called attention to the fact that there are only eleven days remaining during which voters can register for the November election. All those who failed to register for the primaries or who have moved since their last registration and failed to re-register will lose their vote unless they register prior to October 5.

The county clerk says there are very few registrations being made and that the interest in the matter has experienced a decided slump among the primaries.

ROWELL SPEAKS ON HEALTH INSURANCE

"No American State has yet written into its law a health insurance act," asserted Chester Rowell, chairman of the Commission on Social Insurance, speaking this noon before Alameda County Union Social Agencies at Hotel Oakland. "California may be the first American State to write that law provided the enabling act to come before the citizens of the State in November is passed."

"American labor is in favor of social insurance. Two years ago Samuel Gompers are identical then American labor is doubtful. But if the organization and the man are separate then American labor is anxious to receive the benefits of such a law."

"The world outside the United States is the successful laboratory in which the principles of health insurance have been tried. We need a system to bring medical preventive to the people."

Poster Advertising Development, Topic

F. F. Russ, artist and expert engraver, today discussed the value of art work in advertising before the Advertising Club of the Chamber of Commerce. He told of the development of poster and other pictorial advertising, of Liberty loan posters and other high developments of the two.

Tomorrow the manufacturers' committee will hear at its luncheon, also in the Commercial Club grill, details of the war and its effect in the Far East, when Charles Woods, P. R. G. S., will be the speaker.

Steps Are Taken to Speed War Supplies

The automotive section of the factory organization being formed here under the War Trade Board is now fully completed with H. Mohr as chairman and H. G. Macmillan as secretary, under the general supervision of P. J. Walker. Today saw the organization of the clay products section at the Chamber of Commerce.

The various sections will act as a whole under the direction of Walker to facilitate war production in the factories of the bay counties.

CANADIAN HERO TELLS WAR EVENTS

ALAMEDA, Sept. 24.—The first speakers in support of the Fourth Liberty Loan addressed a large audience at the Elks' lodge last night.

Sergeant Green, member of the Royal Canadian Mounted Police, spoke at length of harrowing experiences through which he passed during the first dark months of the war. Green wears the red chevron denoting service in the first year of the war, and three blue ones for each succeeding year.

Daniel Ryan, one of San Francisco's most fluent speakers, made a rousing patriotic speech on the need of every man, woman and child supporting their government in the next Liberty drive which is now at our very doors.

ASK REHEARING.

Whether or not the action of the city council in revoking the liquor license held by the Idora Park cafe may be reconsidered at this time is a matter that was passed up to the city attorney by the council today. A report was ordered for tomorrow. The park management contends that the license was illegally revoked, and is asking a rehearing was given over as provided in the Hart liquor ordinance.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well and you have a quartet pint of the best freckle, sun-burn and tan lotion and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweet fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes, it is harmless.—Advertisement.

Composers of "Hindustan"

Oliver G. Wallace and Harold Weeks, Famous Operatic Composers, are emphatic in their praise of the

SOLOELLE The Tone-Coloring Solo Player Piano

"The Soloelle is truly a wonderful creation. It commences where all other player pianos left off. To say that we are delighted with its interpretation of our latest success, Hindustan, is putting it mildly."

The Soloelle is the only player piano in the world that can give you the means of producing music that is not mechanical—music that is never tiresome—music that is appealing and satisfying.

FIRST—The Soloelle is the only player piano that affords complete and unrestricted control of melody and accompaniment separately.

SECOND—The Soloelle is the only player piano that affords control of the Tone-Coloring—the charm and essence of musical expression.

Brother of Oakland Man Is Found Slain

REDDING, Cal., Sept. 24.—The body of Richard B. Graves, well-known stockman of One, Shasta county, was found early today on Bonanza King mountain, near Trinity Center, according to a telephone message to the sheriff's office. First reports indicated that he had been murdered.

Graves had been riding for some stock when last seen a week ago.

Richard B. Graves, with his brother, Jack Graves, now employed in an Oakland shipyard, started the famous Coffee Creek gold rush in 1897, when they discovered a pocket in their mine from which they took \$35,000 in a few days. Richard Graves was 65 years old and leaves a widow and five children.

Deed Filed for Shipyard Land

One thousand dollars worth of revenue stamps were attached to the deed filed today in the office of County Recorder G. W. Bacon for 165 acres of land adjoining the Union Iron Works plant to the United States Shipping Board Emergency Fleet Corporation for the new Liberty yard. The \$1000 was paid by the grantor, the Oakland Waterfront company. Consideration for the land named in the deed was \$1,000,000.

William H. Crocker, of the Crocker National Bank, is president, and S. B. Morse is secretary of the vendor company.

WOULD CHANGE NAME.

According to the petition of Irving Conrad Leubenstein for change of name, the Teutonic flavor or aroma of the name is displeasing to him. He wants it changed to Leveque. The petitioner recites that he was born in San Francisco and is of the age of 20. The petition is filed in his behalf by his mother, Mrs. Anna Silva, of 1341 Park avenue.

ESTATE TO WIDOW.

The will of Joseph Gallagher, admitted to probate today by Judge Dudley Kinless, bequeathed the estate, valued at \$25,000, to the widow, Mrs. Bridget Gallagher. The deceased, whose death occurred March 29, 1918, was a pioneer of Pleasanton and possessed of wealth. Most of his property was given away to his children prior to his death.

## Children Cry for Fletcher's

## CASTORIA

The Kind You Have Always Bought has borne the signature of Dr. J. C. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been a constant use for the relief of Constipation, Flatulency, Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## The Kind You Have Always Bought

YEOMANETTE;  
POOR THING!  
QUARANTINED

Pity the poor yeomanette! She is in quarantine, too. Tears and sighs fill her thoughts. So long as her brothers in service are held in duration in the fog-covered stretches of Yerba Buena, so long must the yeomanette keep him company. The government is no respecter of sex. Orders are orders. There stay the feminine recruits to Uncle Sam's navy.

When out of a clear sky the station at Yerba Buena was put under quarantine yesterday, the surprise of their lives waited the natty young girls who sport the blue serge uniforms and white hats. Dinner engagements and dance dates went by the board. Hasty preparations for women's headquarters on the island, pushed. Arrangements were made for the inmates. Word came that the women clerks might send for what clothes they needed during that indefinite period in which the naval station would be held in quarantine. There was a flurry and scurry, even tears.

But war is war; Spanish influenza is Spanish influenza and Uncle Sam will not be deceived. The girls are marooned with their patriotic and chosen duty in the middle of San Francisco Bay and will be held there until the sailors are released.

**BALL MAY BE POSTPONED.**  
The quarantine is playing ducks and drakes with the Oakland Defenders Club, too. Whether the big ball which has been planned for Saturday night at the auditorium in honor of the enlisted men will take place or moved along on the calendar is being discussed today. The night will tell the tale. Invitations were ready for the post when along comes the exiling of the sailor guests. Now Oakland Defenders Club loves its sailors and the question comes: Can it give a ball without them? It can provide the presence of the men from the aviation training school in Berkeley is promised them. The matter will be settled today.

Alexander Stewart, secretary of the War Camp Community Service, this morning received the official notification from the commandant at Yerba Buena of the "indefinite" quarantine.

**NO CASES HERE.**  
Although no cases of Spanish influenza have so far been reported in Oakland, Commissioner F. P. Jackson, head of the department of public health and safety, stated today that every precaution will be taken to prevent its spread should any cases break out. He has instructed the officials of the health department to be extremely vigilant in watching for any outbreak.

"There is little to be done other than to warn citizens to be cautious

Pershing's Double Found in  
"Why America Will Win"

GENERAL JOHN J. PERSHING (right) and OLAF SKAVLAN, the double of General Pershing, now appearing at the American in "Why America Will Win."

When Richard Stanton, the Fox director, started producing "Why America Will Win," the graphic story of the life of General John J. Pershing, now playing at the American, he thought that it would be an easy matter to secure a "double" for General Pershing. It is said that everyone has a double and it is usually easy to discover them around a great motion picture studio.

The double for General Pershing was not so easily found, however. In the first place he should be a finished actor. He should not only casually resemble the commander in chief of the American expeditionary forces, but he should duplicate every feature in every position—every mannerism, every characteristic—his walk and his bearing all should be so like that of the general.

Many were chosen to take the tests that were made to determine the fitness of the man to the part. Disappointment was the result of all these tests. Stanton was despairing of obtaining a suitable double for this important character. He had studied Pershing's appearance and mannerisms so thoroughly, that he was astounded one morning to see a man who so closely resembled the general that Stanton could hardly believe that it was not the general himself who stood before him.

This man was Olaf Skavlan. To satisfy himself and the more exacting camera, Skavlan was given the usual tests, which he passed with flying colors.

"Why America Will Win" has a special appeal to mothers, as it is an intimate study of the character of the man in whose care the lives of our boys "over there" are entrusted.

and to report any possible case," said Commissioner Jackson. "Should there be an outbreak we will immediately quarantine the places where the cases are and endeavor in every way to prevent the spread of the disease."

"The first case of Spanish influenza discovered in San Francisco by the health authorities was isolated yesterday afternoon when City Health Officer Dr. William C. Hassler ordered Edward Wagner sent to the San Francisco Hospital. Wagner came here recently from Cuba, where the Spanish influenza has been epidemic."

"There has been published in the newspapers rules that should be followed by all persons regarding infection, and these should be carefully observed at this time. While I do not believe that the situation will become serious here, yet it is well to take precautions."

**RULES ARE OUT.**  
The following rules regarding the disease have been promulgated:

- 1.—During the onset of a fever remain home in bed. This will shorten its course.
- 2.—If an epidemic should come, avoid all public places and contact with those who have cutting symptoms, who cough and sneeze.
- 3.—Never cough, spit or sneeze in a public place. If some other person does, cover your mouth and nose with your handkerchief.
- 4.—Do not expose yourself to wet or cold, keep your feet dry, be careful of your diet and do not use alcohol.
- 5.—Wash regularly your nose and mouth with Dettol's solution or some other equally good preparation.
- 6.—Report immediately to the health department any person you know to be suffering from this disease.

**100 DIE IN A DAY.**  
BOSTON, Sept. 24.—With the death toll from the epidemic of Spanish influenza mounting steadily, the schools of Boston were closed at noon today until the disease is stamped out.

There were approximately 100 deaths in the twenty-four hour period ending today. Of these seven were among men in the first naval district. Officials also reported seventy new cases among sailors this morning.

WASHINGTON, Sept. 24.—The navy department today announced the death of Lieutenant Ivan Montrose Graham, U. S. N., at Quebo, September 21, of influenza. His wife lives at 2444 First street, San Diego, Cal.

**Cocoon Oil Makes a Splendid Shampoo**

If you want to keep your hair in good condition, be careful what you wash it with.  
Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and in a very harmful way. Just plain mulled coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two spoonfuls will make an abundance of rich, creamy lather and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get mulled coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Advertisement.

PACIFIC DIVISION  
QUOTA LEADS ALL

The Pacific division, American Red Cross, leads all divisions in the United States in filling its quota 100 per cent on the call from the surgeon-general of the army for 27,000 nurses up to January 1, 1919.

September 15, the Bureau of Nursing, Pacific division, announced that 1036 nurses had been assigned for duty from the three states in the division, California, Nevada and Arizona. The division was leading in percentage of its quota August 1 with 899 nurses assigned, which was 87 per cent of the total number required from the Pacific division.

In speaking of the work of the nurses in the Pacific division, Miss Lillian L. White, director of the Bureau of Nursing, expresses the utmost confidence that the women will continue to come forward to aid in the nursing service. "It is a certainty," she said, "that the military demand will continue as long as the war lasts. Women are needed in all branches of nursing, trained nurses for active duty in military hospitals and home nursing and nurses to train to fill in the gaps left by the trained nurse assigned to the first line of duty."

Graduate nurses are urged to continue enrolling as the demand for their services is an increasing one. Nurses in training are advised to take all preliminary steps possible that they may enroll as soon as they are graduated. The call for nurse's aids is also an

SALESLADY AT  
EMPORIUM TALKS

Mrs. Emma Stone Recommends Tanlac Highly for Good It Did Her

"Tanlac has not only helped me, it has improved me greatly," said Mrs. Emma Stone, a valued and popular saleslady for the Emporium, San Francisco, residing at 1809 Pine street, recently.

"I have suffered from indigestion for several years," continued Mrs. Stone. "My appetite left me entirely. I was troubled a great deal with gas on my stomach and always had a bad taste in my mouth. I frequently had sick headache, was very nervous and could hardly get any restful sleep. I would wake up at night and find it almost impossible to get back to sleep. I had no energy or ambition and felt tired and worn out all the time.

"My appetite improved almost as soon as I began taking Tanlac. I have taken three bottles now and am going to keep it up for awhile, but it has made a wonderful change in my feeling already. I can eat anything now and have no more trouble with gas or any other signs of indigestion. My nervousness and headache are gone. I sleep fine and get up in the mornings thoroughly rested and refreshed. My work doesn't tire me like it did and I can recommend Tanlac because I have seen such fine results from it."

There are thousands of people who complain of being nervous and run-down. They are not sick exactly, but feel tired and find it hard to get anything out of the time. They need something to build them up and throw off the symptoms of this weakened, debilitated condition.

The system, besides being purified by Tanlac, is toned up by assisting the blood, reinvigorating the constitution, overcoming all headaches, general debility, nervousness, indigestion, non-assimilation of the food, headache, backache, kidney derangements, general debility, and many other ailments that are so common to the thousands of half sick, depressed men and women.

Tanlac is sold in San Francisco and Oakland by The Owl Drug Stores.—Advertisement.

TUESDAY, SEPTEMBER 24, 1918.

## WOOL AND COTTON.

The Kansas City Star, an unemotional and independent newspaper, declares that the failure of the Federal Government to regulate the price of cotton the same as it regulates the price of wheat has given wheat farmers a just grievance. The arguments for a fixed price for wheat apply exactly to cotton, and it is held that the political influence of Southern members of Congress alone has prevented action.

Similar comment is made by independent and partisan Democratic papers of the North and West, which compare the attitude of cotton raisers with that of wool growers, who are almost wholly north of the Mason-Dixon line. The attitude of the wool trade has not been one of simple acquiescence. It has been positive co-operation with the administration program to meet the country's necessities.

In this connection this comment from the Boston Transcript—Boston being the national if not the world wool market—is entitled to consideration. After calling attention to "sacrifices and inconveniences which more expert management in high official places might well have spared" the wool trade, that journal goes on to say: "There can be no adequate representation of wool's story unless attention be also called to the situation in cotton. By the greatness of cotton's contrast, still uncontrolled as to raw-product prices, with traders still hawking in the South for a special privilege of exemption to which they are in no way entitled, it is the picture that throws into full relief the fast red, white and blue that have been dyed in the wool in no uncertain fashion by the war's story."

This matter gains in acuteness through the recent determination that the year's wool supply will be equal to military requirements only, forecasting cotton prices at illimitable heights unless it is put on the same basis as its sister fabric.

## REORGANIZING THE SCHOOL SYSTEM.

It is proposed to reorganize the school system of the State. It will be a wise move if it is intelligently done. If it is done with the mere object of making it different from what it is now, it will not be so salutary. Educational methods ought to be so well crystallized that there would be but small division of opinion as to what ought to be done.

There is no question that the system should be uniform, and that changes in any degree should not be left to other boards than the State board. It seems equally reasonable that the State Superintendent, and all superintendents, should be appointed. The person best qualified to supervise public education is not always a politician, possessing the knack of getting himself elected. And the person who can get elected is not necessarily qualified to supervise the instruction of the young.

The electorate is not always discriminating, especially as to offices that do not appeal to the partisan spirit. It is too much inclined to concede one man's fitness for a school superintendency, and then vote for another who has a more gracious way. An instance could be cited where a board of education is appointed and the superintendent elected. This would seem to be an altogether bad arrangement.

The public schools are a fetish with Americans. It is the one branch of government in which there is hardly ever a disposition to stint. It is a department on which the taxpayer spends the most and about which he knows the least. As long as the citizenry does not greatly interest itself, an appointive system, safeguarded as well as may be, would appear the wisest course.

We have seen somewhere a news account of a shortage in pickles, which paucity is apparently worrying those who purvey in the large manner for the boys over there. Something must have come over the spirit of the hard-headed and altogether wise individuals whose duty it is to determine what is good for the soldier's stomach. For in that other time, when these things were not down to the fine point they

are now supposed to be, pickles were not considered ideal human food, and were all but taboo under some conditions. However, if they are now desired, and are not in sufficient supply, all the food administrator has to do is to order pickles discontinued till further notice.

## VALUE OF PUBLICITY RECOGNIZED.

In recognition of the great value of publicity in every war activity, army officers have encouraged the establishment of newspapers in the various army camps. Over fifty such papers are issued, one of the best known of these publications being the Stars and Stripes printed in France. These papers range in size from eight to sixteen pages and, in a majority of cases, are issued weekly.

The camp newspaper, staunchly patriotic, is accomplishing much good. It is a medium through which important and necessary information is placed before thousands of men. It proved of great value in the campaign for military insurance and is a great aid in welfare work. Through this agency warnings are given against those merchants in the vicinity of the camps who attempt to take advantage of soldiers by demanding exorbitant prices. The practice among soldiers has become general of mailing these papers to relatives, and through this agency those at home are kept in closer touch with absent ones.

The demand that brought about the establishment of camp newspapers is another striking evidence of how essential publicity is becoming in every avenue and activity of life.

The adage about coals being carried to Newcastle has a new application in one of the curious results of the war. The presence in Italy of Americans in railroad construction has been reported. Indeed, they are at similar work in all the war countries, but in no other is it as significant, because the best railroad builders in America before the war were Italians. This was because of their strength, willingness and docility in accepting orders. Americans engaged in railroad building abroad are mostly, no doubt, in the higher grades of such work, but they are over there for service, and fall to at whatever needs to be done.

It was Ingersoll, if memory serves, who was responsible for the observation that Washington, to some minds, was a steel engraving. Meaning that it was difficult to visualize him as an ordinary human being. Something the same way with Jerusalem when we read about it being all torn up to lay sewers and water pipes. We had obtained our impression of it through hymns. It had something the same substantiality as a mirage. After the ages Jerusalem is to come forth with modern triumphs. But it had to be wrested from the Turk before this was possible. If it is now to lose its ethereal character it is at least likely to smell better.

Undoubtedly one of the most unique tributes from a high place that Food Director Hoover has received came from President-elect Valdez of Panama. He has carefully read and verified the director's circulars as to flour mixtures, and approved them in practice; and it is not impossible that the satisfactory results are a factor in his friendship for this country. The president-elect is a baker and indorsement on these lines, therefore, is not likely to be perfunctory. The absence of other similar indorsements may be accounted for because so few of the South American presidents are bakers.

The United States Railroad Administration has created an inland waterways division which will have charge of the canals and navigable rivers of the country. Inland waterways will be divided into districts in charge of federal managers. This step is regarded as a recognition of the great value of waterways in solving transportation problems. With the present congestion of the rail lines it is a matter of regret that a more liberal policy has not been followed by congress in developing all means of water transportation. In years past the railroad interests have exerted an influence in retarding such development.

Where and how the mass of documentary evidence showing Hun responsibility for the Russian revolution was obtained does not appear, but the documents bear indubitable signs of genuineness. It was evidently expected that they would be destroyed, but it seems that while the emissaries could be depended upon to do the nefarious work, they could not be made to see the necessity of destroying the evidence. The Russian mind is not subtle. Particularly illuminating is that document from a German source and dated in May, 1914, which in effect declared that the war was ready, but that the provocation had not yet arrived.

## LIBERTY BOND SLACKERS.

"Our sons and brothers at the front pay service in blood, the rest of us must pay it in money," Colonel Roosevelt says dramatically in his earnest appeal to the American people to buy Liberty bonds.

That expressed in a sentence the whole creed of American patriotism. Every man and every woman, every boy and girl, owes service to country of one kind or another. Our boys are bleeding on distant soil, our nurses are there under fire and bomb and poison gas, our cross workers, Y. M. C. A. volunteers, Knights of Columbus servants and Salvation Army tollers—all are living splendid service lives.

We who remain at home in safety and comfort must meet that service. We can, and possibly must, by buying bonds to the point of redoubt.

The civilian at home who refuses to buy Liberty bonds to the full measure of his ability will invite the just contempt of real Americans and the righteous scorn of our soldiers overseas.—Epochman-Review.

## NOTES and COMMENT

The publication of an estimate that California's rice crop will be three million bushels probably fortifies the Gamco Commission in its attitude against the molestation of ducks. Having so much, it is likely to be held the rice men can loosen up and spare enough for duck feed.

The important news comes from Canada that but 1000 Belgian horses—those big, wonderful steeds—remain in the world, and they are mostly owned by breeders in the northern country. The Hun has overlooked nothing in his looting and devastation.

A despatch states that the Spanish-German issue is not yet settled. No issue to which Germany is a party is settled, or can be settled, till Germany is "settled" in that way that the decent world recognizes as absolutely necessary, the process of which is now going forward.

The Blackhand sort of thing is a variant of the long way of doing. Both are repugnant to the American sense, and their extirpation cannot be too summary.

The prune joke is now adjoined. The rains broached the crop to such extent that for the next year they will figure more as a luxury than a boarding-house steady.

Something is everywhere taking the joy out of life for the joy-rider. In the East it is the embargo on Sunday riding. Here it is highwaymen who make the skyline route and other secluded roads unsafe.

The instances reported from across the bay is interesting. The man claimed he was robbed of \$105. The waiter said that all the man had was \$17, which he gave as a tip. The man was locked up for drunkenness. What happened to the waiter and the tip is not disclosed.

In one and the same despatch the news is conveyed that government has stopped the importation of mahogany, and authorized the importation of fresh tomatoes. Particulars as to the whys and wherefores would undoubtedly be interesting, but of these the account is bare.

One heading reads, "Kaiser orders Teutons to join Soviet troops," and another that "Murder faces ally citizens in Russia." A terse statement of cause and effect.

The "clean plate" urged by Mr. Hoover means plating the custom of leaving something for "manners." The attention being paid to these details by government will result in showing us how, through false ideas of what is good form, it has become our custom to waste.

The Huns evidently find it difficult to shut out the light completely. It is not only the allies to scatter leaflets by airplane on German territory, but the German caught in reading one is punished. A prisoner tells the story that he made amends for disregarding such order by going with his hands tied behind his back for eight days. There must be a considerable number that are not sorry that they are being rescued from such thralldom.

## SPIRIT OF THE STATE PRESS

Can it be possible that the schools of albacore have been so depleted by the great slaughter of them in the past that it has produced a scarcity of these fish? Winter and summer, in Catalina waters, anglers have always been able to take albacore—the larger fish being taken during the winter, but the summer season of 1918 has been a puzzler to those who are making a special study of the habits of pelagic fishes. A change in local currents may have some bearing on the problem, but the theory of extermination should also be taken into consideration.—Avalon Islander.

Every time, during the last year or so, that anyone has proposed in Congress or elsewhere to levy any tax on motion pictures, the magnates who have had the handling of the millions going in and out of the picture business have but one plea to make—this is their money goes to pay the Mary Pickfords and the Theda Baras of the business, and that they have nothing left for either themselves or the government.—Fresno Republican.

Unable to run long distances and carry a sufficient number of passengers to place the system on a paying basis, motor buses operated in connection with the Municipal Railway system have already incurred a loss of \$17,000, according to figures given the supervisors' public utility committee. The demand apparently to be limited, and the farmers are paying warehouse fees and insurance pending the time when there is a market for their products. And as against that time expenses are running and the Liberty loan campaign is approaching.—Bakersfield Californian.

## THIS DAY IN THE WAR

Sept. 24, 1917: Six killed and twenty injured in latest German baby-bombing expedition against London.  
Sept. 24, 1918: Twelve Zeppelins shot down, killing thirty and injuring 119. Two Zeppelins brought down and crew of one taken alive.  
Sept. 24, 1915: Greece mobilizes.  
Sept. 24, 1914: French occupy Petrozino.

WOMEN'S WORK IN DALLAS.  
Dallas is going to have a woman deputy sheriff. Women are doing men's work right along in Dallas. Indeed, many of them are supporting husbands and children.—Houston Post.

## The Allies' Big objective—cut off his tail and crush his backbone

## WEATHER REPORT

Forecast.  
Oakland and vicinity: Tonight and Wednesday fair and warmer; light northerly winds.  
Northern California: Tonight and Wednesday fair and warmer; light northerly winds.  
Southern California: Tonight and Wednesday fair and warmer; light northerly winds.  
The Associated Charities of this city held its annual meeting in the First Methodist church, corner of Clay and Fourteenth streets. A. A. Denison reviewed the work of the organization.  
Professor Magee of the physical culture department of the University of California, taught the young women students the theoretical points of baseball.  
Two highwaymen attempted to hold up James W. Daggett, a deaf mute, at Thirty-eighth and Grove streets, as he was driving home. Daggett instead of stopping whipped up his horse and ran over one of the would-be robbers and escaped.

NEW ARMY MOTOR CORPS.  
All motor vehicles in the army, from bicycles to trucks, will be turned over to the new motor transport corps that is being organized by Col. Charles B. Drake. Eventually, the war department announced, Col. Drake's command will consist of approximately 5000 officers and 200,000 men.  
The plan of putting the entire motor equipment under a single head was adopted long ago by the British and French armies to attain a more nearly perfect standardization of equipment and facilitate interchange of drivers.  
Motor trucks are taking a more vital part in each successive big battle. In the recent counter offensive of the French and Americans at Chateau Thierry motor trucks carried several regiments of troops to critical points in the line and supplied them with heavy and light guns, ammunition, horses, mules and even wagons for supply train use over terrain that was not feasible for motor vehicles.  
Repair work is carried on in garages, parks, depots and reconstruction shops. A service park is a mobile garage which can be moved rapidly to any point where it is needed. An overhaul park is a large station where heavy repairs can be made and a reconstruction park is equipped to completely rebuild broken-down machines.

Conditions are favorable for fair and warmer weather in the district.

CALL OF THE PURPLE SAGE.  
Over the hills of home it sweeps,  
Down through the valley and up again  
A yearning voice that is meant for me,  
A call from the distance I hear,  
'Tis plain.  
The voice is so limpid and sweet  
And kind,  
That sometimes at still of night  
I sit  
And stretch my arms in a vain attempt  
To reach the power of answering  
It.  
I see the vision of ragged rocks,  
And hills which sweep to an alkali sea,  
And I hear the bark of a shepherd's dog—  
And the lure of the sage has enveloped me.

Bowling and awaying from side to side,  
Sending its perfume across the plain,  
There's a wily enchantment about  
The sage,  
That lures its loved ones home  
again.  
Never a wanderer rich or poor,  
In the splendor of youth or bowed  
with age,  
Who had left its spell but would  
hurry back,  
To answer the call of the purple  
sage.

MRS. L. H. RAMSAY,  
Berkeley, September, 1918.

## TODAY 20 YEARS AGO

Orestes Pierce presented the golf club at Adams Point with a new trophy.  
Miss Pearl Crothers, Miss Laura Norman and Miss Elsie Catter gave a patriotic party at the home of Mrs. Catter, 1407 Castro street.

The Associated Charities of this city held its annual meeting in the First Methodist church, corner of Clay and Fourteenth streets. A. A. Denison reviewed the work of the organization.

Professor Magee of the physical culture department of the University of California, taught the young women students the theoretical points of baseball.

Two highwaymen attempted to hold up James W. Daggett, a deaf mute, at Thirty-eighth and Grove streets, as he was driving home. Daggett instead of stopping whipped up his horse and ran over one of the would-be robbers and escaped.

## FOURTH LIBERTY LOAN SUGGESTION.

To the Editor of The Tribune:  
Dear Sir:—I feel we should plan to keep a record of every dollar paid by Oaklanders for bonds in other communities.

While this would not be allowed officially to Oakland's cash total, it will provide a source of information as to the full amount Oaklanders subscribed for the Fourth Liberty Bond.

To get this information every bond salesman should carry with him from house to house cards containing blanks in which the full particulars could be entered, showing detail of out-of-town purchases. Many excuses may be considered plausible but the group would prove interesting reasons.

During the last bond sale I found five persons in one block who bought out of Oakland. Here are some excuses:

1. I am in business in Alameda.  
2. My permanent home is in San Francisco.  
3. My boss asked me to buy of him in Berkeley.  
4. I bought with our lodge in San Francisco.  
5. My son is captain of a bond team in San Francisco.

The main point is to have a record of all the bonds bought by Oaklanders.

When we begin to total up and hear of neighboring communities going over the top and find the climbing slow it will be a satisfaction to know of the hundreds of thousands of dollars paid by Oaklanders for bonds, even if they were unparitically enough to buy them out of Oakland.

If our target is ten million and we raise an even ten millions and know of a million that our patriotic Oaklanders bought it would be very gratifying to add this on unofficially. Of course only the amount sold in Oakland would count legitimately but no one could object to us saying that Oaklanders bought eleven millions. What do you think of the plan?

Yours sincerely,  
WILLIAM I. DAY,  
1514 21st Avenue, East Oakland, Calif.

## LOCAL MAN OPENS BIG CONVENTION

Charles H. J. Truman of Oakland, president, called to order in the San Francisco civic auditorium this morning the largest assemblage of California undertakers ever assembled in the state. President Truman gave his annual message, urging the embalmers to embrace every possible opportunity to help the government in winning the war.

Rev. A. C. Stephens, San Francisco Methodist college president, gave the invocation. Mayor James Rolph, Jr., of San Francisco, delivered the address of welcome. Response was made by Past President George W. Lunt, of the Funeral Directors Association.

Professor Charles A. Renouard, who is giving lectures and demonstrations at the convention, gave a

## UKULELE CASE NOT CARRIED TO PRODUCE MUSIC

Ed Kramer is a graft shipbuilder, with no music in his soul. And particularly no ukulele-music.

Wherefore friends watched yesterday as he sneaked shame-facedly along the off edge of the sidewalk, carrying a ukulele case with a ribbon on it, too!

"Haw!" said all his friends.

"Well, well!" chortled the friends.

"What's in it for a little of that hula stuff, hey?"

Then Kramer exploded.

"Hula, nothing!" he shouted. "My wife took off my suitcase, and I gotter sleep at the yards tonight! Here's what's in this jigger—the only thing I could find in the house to carry my stuff in!"

With an indignant gesture he tore it open, and out rolled a shaving outfit, a pair of socks—and a toothbrush.

short talk before the business session opened.

An address on the "Undertaker and the Law" was delivered by R. C. Young, San Francisco attorney. He explained the legal aspects of the mortician's business from the bar's point of view. An informal reception and dance will take place this evening at the Hotel Whitecomb roof garden.

## CITY'S SHARE IN BONDS IS 13 MILLION

Oakland's quota of the Fourth Liberty Loan, provided the total for the nation is \$5,000,000,000, will be \$13,220,250, or almost double the quota for this city in the Third Liberty Loan. It was announced today by the local committee. Definite information as to whether the Fourth Loan will be five, six or seven billion dollars has not been received, but it is thought that it will be six billion. The exact amount will be announced tonight by Secretary McAdoo of the Treasury Department in a speech at New York.

The quota for Alameda county on the basis of a \$5,000,000,000 loan will be \$18,151,500. In the Third Liberty Loan the quota for this county was \$9,442,500, so that it is approximately doubled, with the doubling of the previous loan, the quota falling short of actual doubling as the amount of raised in the Twelfth Federal Reserve district has been reduced by a fraction of one per cent of its ratio to the total to be raised by the nation.

## MANPOWER TO WIN WAR AND U. S. HAS IT

WASHINGTON, Sept. 24.—Senators who criticized the foundation of War Baker last January for his assertion that he would have 1,000,000 men in France by July 1, were today called upon to apologize before the public by Senator Thompson of Kansas, who has just returned from the battlefield.

"We have 1,750,000 men in France and have the foundation laid for many millions more, if necessary," Thompson said. Baker's estimate has been greatly exceeded. These pretended military critics should admit for once that Secretary Baker was right and they were wrong. The final success of the war resolves itself into a question of man power, which the United States is fortunately able to furnish."

## NOISE GALORE TO WAKE ALL ON SATURDAY

Oakland's Honor Day—September 25—which will mark the beginning of the campaign to float the Fourth Liberty Loan, will be observed in genuine, patriotic style, according to the plan being formulated by the Liberty loan committee.

The distinguishing feature of the day, it is hoped, will be a generous response of the citizens of the city to their banks on that day and subscribe for Liberty bonds to the extent of their individual ability.

Between now and next Saturday—Honor Day—the committee will conduct an energetic campaign to make the day the most notable of the entire three-week period of the campaign. To achieve this the Oakland Ad Club, which has charge of all advertising and publicity features of the drive, will concentrate its efforts upon acquainting the citizens of Honor Day and with the significance of everyone's doing his part to start the city well on its way toward attaining the required quota.

## Fourth Liberty Loan Bonds May Be Paid in 1938

WASHINGTON, Sept. 24.—The amount of the fourth Liberty loan forecast as around \$6,000,000,000, will be announced within the next twenty-four hours. Terms of the loan have been decided upon by treasury officials and it is likely the bonds will be payable in 1938. It is probable Secretary McAdoo will call for all over-subscriptions. This, it is estimated, may bring about \$7,000,000,000 into the treasury.

The three previous war loans aggregate \$9,984,000,000.

Of this sum \$5,031,000,000 have been paid over to allied governments and credits of nearly \$500,000,000 more have been extended but not paid.

## Minister's Wife to Quit Pulpit Job Is Only Temporary, She Says

"Being minister to my husband's parish was just a temporary thing," declared Mrs. H. E. B. Speight, as she was recovering from the labors of a busy Sunday of religious service, superintending the intricacies of the pulpit. "After next Sunday I shall retire from the pulpit. That does not mean that I have finished with the practical work of the congregation. It means that I have a family that needs me."

Mrs. Speight took over the pastorate of the First Unitarian church in Berkeley, one of the most exclusive congregations in the university city, to permit her husband his opportunity of going into training as an army chaplain at Louisville, Ky. The six weeks of substituting on Mrs. Speight's part has won him his commission. The Berkeley clergyman is now awaiting orders that will take him directly overseas or assign him to a camp with foreign service in the near future. It is possible that a furlough will be granted for him to bid his minister-wife goodbye.

"I have never been ordained, but I have taken the same degrees as my husband. In his theological work I have kept pace with him and done pretty much the same studying. His opportunity for army service came so abruptly that neither he nor his church had time to make arrangements. It was natural that I should take over his work and carry it on. It is no different than what other women are doing in the profession."

## John E. Borges Hangs Self in Barn

Within two hours after John E. Borges of 322 Park avenue left home this morning his body was found hanging in an old barn at Eighth and Fallon streets and was removed to the morgue.

Borges recently came here from Tracy to work in the shipyards. He made his home with his mother and sister at the home of his brother-in-law, C. V. Leper in Park avenue. An investigation was made by the police and it was found that Borges had evidently cut his wrists during the night but had failed to bleed to death and decided upon strangulation. No reason for the suicide has been learned.

## Hand-painted Spoon Tray

Special  
all this week  
15c

This pretty hand-painted Nippon china dish may be used as a spoon tray or for serving pickles or olives. In fact, it is such a handy size and shape that one would use it many times for jellies or jams. At this price why not buy several?

## White China Reduced

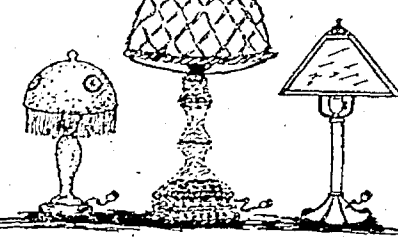

Here is an unusual opportunity for the woman who has an all-white set to fill in wanted pieces. The pattern with fancy raised edge will match the all-white Haviland and other imported patterns. This is fine imported china, a close-out of odds and ends at prices as low as the cheapest American semi-porcelain.

## Coal Dealer Fined For Violating Rule

SAN FRANCISCO, Sept. 24.—Albert E. Schwabacher, federal fuel administrator for California, today im-

posed a fine of \$500 on the Chicago, president of the Chamber of Commerce, before the Senate agricultural committee today. For the fact that "the press drew the conclusion that the federal trade commission was attempting to contradict the federal trade commission," his organization was in no way to blame, Wheeler said.

Wheeler denied that the Union Trust Company of Chicago, of which he is the vice-president, is "an Armour bank," as charged by the commission. He said, however, that it had many packers' accounts and has made some loans to packers.

Wheeler denied that the Union Trust Company of Chicago, of which he is the vice-president, is "an Armour bank," as charged by the commission. He said, however, that it had many packers' accounts and has made some loans to packers.

## FOR WINDOW DISPLAYS.

During the balance of the week, the ad. club committee in charge of Honor Day publicity features, will hold several meetings, the purpose of which will be to check up the effectiveness of the advertising campaign. The ad. club men, in concert with the Liberty loan committee, declare they are determined to make Honor Day the most noteworthy event in the local history of the fourth war loan. In support of the belief that this will be accomplished the Liberty loan committee points out the fact that the ad. club began its activities with a special committee of seven men, which up to the present time has expanded to fifteen members.

Mrs. M. A. Anderson, head of the Women's Army, announces that on Wednesday important meetings of vital interest to the majors, captains and lieutenants of the five districts will be held as follows, and inasmuch as final instructions will then be given for the conducting of the coming Liberty Loan drive, she urges all officers to be present:

District No. 1, Mrs. C. E. Wilson, colonel, will assemble at Lockwood school at 3:15 p. m.

District No. 2, Mrs. C. R. Armstrong, at Franklin school at 3:15 p. m.

District No. 3, Mrs. Samuel Breck, Technical high school auditorium at 2:30 p. m.

District No. 4, Mrs. Charles D. Haines, Star King hall at 2 p. m.

District No. 5, Mrs. Newton Koser, Chabot hall at 2 p. m.

**WIXSON FUNERAL.**  
The funeral of Ernest Wixson, son of former Councilman and Mrs. J. S. Wixson, was held at 2 p. m. today. Besides his father and mother, he is survived by a son, G. Wixson, and two brothers, Robert S. and Clifford Wixson. He was a native of California and 37 years old.

TRAFFIC MEN  
DISCUSS HARD  
AUTO PROBLEM

By EDMUND CRINNION

Pending the arrival of some belated delegates to the first national convention of traffic officers, the officials of the state body are today holding their regular business session at the Oakland Auditorium. The business session of the California Traffic Officers' association today, which will close tonight with a smoker and cabaret at which the delegates to the national convention will be guests of the state body, will be followed tomorrow morning by the opening business session of the delegates to the national convention at which police chiefs from various parts of the United States are in attendance.

The convention of the traffic officers was called to order yesterday by President J. G. Wallman, corporal of the traffic squad of Oakland. The opening address was made by President Harmon Bell of the Pacific Coast Land and Industrial exposition. The opening session was marked by the interest displayed by the delegates who all expressed themselves as anxious to discuss mutual traffic law problems and to return home the better able to cope with the automobile traffic law questions as the result of their having wrestled with their problems together and listened to the experience of others in handling the same problems in other cities.

**INTERESTING ADDRESSES**  
Some very interesting addresses were made yesterday by the various police chiefs in attendance, and Police Chief Vollmer of Berkeley explained in detail the workings of the automobile thieves. "The man that steals cars for a business specializes in various make cars and seldom touches others," says Vollmer. "When these thieves are ready to operate in a city they make all plans for their getaway, alibi, etc., in advance. They then spot their prey and await their opportunity to get it. The best automobile lock ever made can not better these expert thieves for over a minute. They open locks while

Tomorrow Another Big Program  
America and Italy at Land Show

Ever see anything like this before? Well, it's only one wonder of many at Oakland's big exposition.

## Splendid All-Day Affair for the Visitors

Tomorrow! Another big day at the Land Show. America and Italy will celebrate at once.

America will hold "War Activities Day." Italy will hold "Italian Day." The program, a big double program, will be a hummer—all the way from grand opera to war films, with "trimmings" galore in the way of joy-producers.

It's to be a big all-day affair—something doing every minute and amusement all the time—day and night. What with baby show and dances, concerts and comedy features, entertainment wherever one turns, and the Zone running full blast just to keep things lively, it will be one of the greatest days of the many big days in store at the exposition.

"Bring the family—only two bits a head—and make an all-day stay of it!" This is the advice every man in Oakland is giving every other man. Any one who's been there will tell his neighbor that—and that he's going again, too.

**ITALIANS TO CELEBRATE.**  
The Italian celebration tomorrow will show for the first time in California the remarkable war films taken by the Italian photographers with their armies in the Alps. Things have started on a big scale in this sector again—so these films are of more than ordinary timely interest right now.

The traffic cops will be there—and their great exhibit. Incidentally, notice those street signs in the exhibit—"Nedderman avenue," "Wallman street" and so forth. They even get in touch with the show.

**HOW'S YOUR BABY?**  
Have you a baby in your home? Is he a good baby? Is he an ideal baby?

The Land Show can tell you! For the Women's Council of Defense is carrying on a "perfect baby" campaign at the big show and here all the babies brought in are weighed and classified. Instructions on nourishment and such details are given and Oakland's best babies are to be chosen. YOURS may be one of them.

Here are the specifications every baby ought to fill, according to age. How does YOURS compare?

Age	Weight	Height	Chest	Head
Pounds	Inches	Inches	Inches	Inches
Birth.....	7.5	20.8	13.4	3.9
1st month.....	11.0	20.5	12.9	3.5
3 months.....	16.0	23.4	16.5	4.0
6 months.....	22.0	26.0	18.1	4.6
12 months.....	26.0	28.0	19.0	4.9
18 months.....	28.0	29.0	19.5	5.0
2 years.....	30.0	30.0	20.0	5.1
3 years.....	35.0	35.0	20.5	5.2
4 years.....	40.0	40.0	21.0	5.3
5 years.....	45.0	45.0	21.5	5.4
6 years.....	50.0	50.0	22.0	5.5
7 years.....	55.0	55.0	22.5	5.6
8 years.....	60.0	60.0	23.0	5.7
9 years.....	65.0	65.0	23.5	5.8
10 years.....	70.0	70.0	24.0	5.9

There is a complete exhibition of the many safety first devices that are scheduled for a demonstration before the traffic officers' convention, and after the business session of the organization yesterday the delegates spent the balance of the afternoon in studying the many angles of traffic troubles presented by manufacturers and jobbers in safety first devices.

## Gompers Goes to French Labor Parley

PARIS, Sept. 24.—Samuel Gompers, president of the American Federation of Labor, has arrived from London. He and the American delegation will attend a huge gathering of allied laborites at Havre tomorrow.

CHURCH, STATE  
DO HONOR TO  
LATE PRELATE

NEW YORK, Sept. 24.—The funeral of Cardinal John Farley, late archbishop of the diocese of New York, at St. Patrick's cathedral today, was attended by the most notable representation of Catholicism New York has ever known.

The nation, state and city united in honoring the great priest. Messages expressing the feeling of loss at the cardinal's death were read from Pope Benedict, President Wilson, Governor Whitman of New York, Mayor Hylan of this city and from other dignitaries of states, cities and foreign nations.

Three cardinals, seven archbishops and six bishops of the Catholic church in America sat within the chancel during the ceremony which preceded the placing of the body in the cathedral crypt. Cardinals Gibbons of Baltimore, O'Connell of Boston and Beign of Quebec with the apostolic delegate, Archbishop Bonzano, occupied thrones canopied in purple and black beside the altar. Archbishops present were: Dennis J. Dougherty of Philadelphia, John Shaw of New Orleans, George W. Mundelein of Chicago, John G. Glennon of St. Louis, Henry Moeller of Cincinnati, Martin Trischler of Cordova, Yucatan, and Paul Bruchesi of Montreal.

**SUSPECT IS EXONERATED**  
Jacob George Heulman, arrested on suspicion of having participated in the robbery of a saloon at 301 Filbert street on September 14, was released last night and exonerated by the police.

All to be found and all well worth seeing. The greatest collection of birds' eggs in the world, the Snow collection, is a delight to every one. And exhibits from every part of the state, demonstrations, all manner of specially interesting sights, crowd the tents.

Tomorrow interest will center about the government pavilion, with war activities galore and entertainment in between. A special train will bring in a party of Stockton boosters, too.

Saturday is to be Luther Burbank day. The plant wizard will show how he makes new plants out of old ones—and there'll be a big show, the details of which will be announced later, to go with this.

NEWS ABOUT  
WAR TOLL IS  
CONFLICTING

Mrs. G. N. Gaines received a telegram from the war department yesterday notifying her of the death of her son, Corporal Clifford Gaines, in action on July 16. Several days ago Mrs. Gaines received a letter from her soldier son dated August 22 from a hospital in France, where he was convalescing from slight wounds in his knee. She has hopes that the official telegram which came yesterday was a mistake, believing that the boy was in the hospital when the government reported him killed. The family home is at 2516 Clement street, Alameda.

Three service stars are displayed by the Gaines family, for Corporal Clifford Gaines and two brothers, one training in camp and one with the marines in China. Corporal Gaines was a stichman employed by the Southern Pacific company when he was drafted on April 1.

Daniel Tortie, nephew of Leon Cazet, owner of the Vauban, a Washington street establishment, has written to tell his uncle of wounds received in action. He says: "I have been wounded pretty badly, but the doctor who shot me is dead."

Young Tortie was in the war for two years for France, his native country. After that he came over here, and as soon as this country got into the fight he re-enlisted. He is the fifth of the family to join.

Mrs. Mary O'Connell, of Mountain View, mother of Lieutenant Francis O'Connell, enlisted on July 19 as wounded in action, has received a letter from her son saying that he is safe and in the best of health. The letter was written after the news of his injury was received.

## Father Quinlan of Pasadena Expires

PASADENA, Sept. 24.—The Rev. Father William F. Quinlan, pastor of St. Andrew's parish, Pasadena, died of heart failure late yesterday following a two weeks' illness. He was one of the best known clergymen of the diocese of Los Angeles and Monterey. He came to Pasadena in 1905, after serving as pastor of parishes in Watsonville, Eureka and San Diego.

B'r'er Rabbit Pursues H. C. of L.  
Once Modest Leghorn in Elite

B'r'er rabbit may not be as much of an aristocrat as the little brown hen and others of the poultry world elite. But he and his cousin, the Belgian hare, are in much greater demand socially, or rather gastronomic, than the poultry family these days. Commission men, who know all about the two families, say it is because the rooster crowd put too high a price upon themselves.

They strut around with the arrogant assumption that frequently comes with sudden affluence. That parvenue, Mrs. Leghorn, for instance, has forgotten how, only last spring she was classed almost plebeian when she appeared on the tables of the most humble for a consideration of 17 cents a pound wholesale and 25 cents retail.

In 1916 her price was only 13 to 14 cents a pound wholesale and 21 to 22 cents retail. Now she cackles proudly in the knowledge that she is worth from 33 to 34 cents a pound wholesale and 45 cents a pound retail, and thus appears on only the most exclusive tables.

Dr. Kirby Smith  
To Go to War

Dr. Kirby Smith, city health officer, today applied to Commissioner F. F. Jackson and the city council for a leave of absence for the duration of the war as he has been called into service in the army medical corps to report for duty at an early date in Honolulu. He is commissioned as a captain.
